Mumbai - 400 051.

**Sub: Coastal Road from Nariman Point to Kandivali**

Dear Sir,

We invite your attention to the Coastal Road project from Nariman Point to Kandivali.

We regard to the latest news article in Times of India (copy attached), we are given to understand that the Coastal road is initiating from Princess Street instead of Nariman Point.

We wish to mention that Nariman Point, being a Commercial Hub and the Prime Business District, largely faces issue of traffic congestion. Nariman Point is a Centre connect to other Business Districts viz. World Trade Centre, Cuffe Parade, Ballard Estate, Flora Fountain etc.

The coastal road till Princess Street will invite severe congestion at Nariman Point, being adjacent to the 8 lane road, similar to traffic congestion at Haji Ali road adjacent to Sea Link.

We request you to kindly re-consider the plan for connecting the road from Nariman Point. We seek your kind advice and guidance in the matter.

Thanking you,

Yours Truly,

For Nariman Point Association

  
Mr. R.R.Gupta,  
Hon.Secretary
